CFAWin8 ShopFloor Mechanic Job In | Job Out Times Reports

The following reports are available to review ShopFloor Job In | Job Out entries:

1. ShopFloor - Mechanic Job Times - Chronological

The ShopFloor - Mechanic Job Times - Chronological report (File Name: eqrclk02.rpt) lists in chronological order the Job In and Job Out dates and times of mechanics in CFA ShopFloor.

- This report only displays jobs that have been jobbed into via CFA ShopFloor.

- This report will display the Job In date and time and Job Out time in black. If the Job Out is on a different date than the Job In, the date will also be displayed for the Job Out.

- If the Job In and Job Out clock times have been edited in CFA ShopFloor via the **Edit | View/Edit Clock Times**, the original Job In and Job Out times will appear in red below the edited clock times, which appear in black.

- This report does not reflect manual override hours in CFAWin8. The Hours displayed on this report will always reflect what was clocked in CFA ShopFloor.

Note: When the report is run, a prompt appears to set the date and time range for the report. The default time is 00:00 (midnight). To run the report for one 24-hour day, you must either set the date range to the date needed through the next date or you must set the time accordingly. For example, to see all mechanic time clocked for 1/1/2099, you could either set the date/time to 1/1/2099 00:00 through 1/1/2099 23:59 OR you could set the date/time to 1/1/2099 00:00 through 1/2/2099 00:00.

Example of eqrclk02.rpt:

CFAWIN TRAINING CLASS
ShopFloor - Mechanic Job Times - Chronological

In	Out	Equipment	Repair Order	Grp/Sys	Description	Hours
001 - Wunderlung, Louie						
Mon 03/03/14 12:40PM	12:45PM	606	0000000407	06-31	CHARGING SYST	0.10
Mon 03/03/14 12:45PM	12:54PM	606	0000000407	06-31	CHARGING SYST	0.20
Wunderlung, Louie - 001	Total					0.30
004 - Studebaker, Jennifer						
Mon 03/03/14 11:10AM	11:12AM	606	0000000407	06-31	CHARGING SYST	0.00
Mon 03/03/14 11:14AM	11:26AM	606	0000000407	06-31	CHARGING SYST	0.20
Mon 03/03/14 11:14AM	11:19AM					
Studebaker, Jennifer - 004	Total					0.20
Grand Total						0.50

2. ShopFloor - Mechanic Job Times - Reconciliation

The ShopFloor - Mechanic Job Times - Reconciliation report (File Name: eqrclk01.rpt) acts as an audit report to compare clocked times in CFA ShopFloor vs. manual overrides in CFAWin.

- This report only displays jobs that have been jobbed into via CFA ShopFloor.

- This report will display the Job In date and time and Job Out time in black. If the Job Out is on a different date than the Job In, the date will also be displayed for the Job Out.

- If the Job In and Job Out clock times have been edited in CFA ShopFloor via the **Edit | View/Edit Clock Times**, the original Job In and Job Out times are labeled ORIGINAL TIME and appear in red below the edited clock times, which are labeled *EDITED* and appear in black. The User ID logged in when the edit was keyed, Date and Time edited appear in parentheses.

- If the Labor Hours have been adjusted in the core CFAWin8 application, the report will display **MANUAL TIME OVERRIDE** above the job line. The User ID logged in when the edit was keyed, Date and Time edited appear in parentheses.

- If the Labor Hours have been adjusted in the core CFAWin8 application, The ShopFloor Hours column will reflect the hours clocked in CFA ShopFloor and the Entry Hours column will reflect the manual Labor Hours entered in the core CFAWin8 application.

Note: Setting a date range filter for this report works consistent with other Repair Transaction reports in CFAWin. This report does not use time as part of the range filter.

Example of eqrclk01.rpt:

CFAWIN TRAINING CLASS
