

CFAWin8 Recommended Minimum Requirements

I. Considerations

- Minimum requirements based solely on CFAWin8.
- Client performance may vary pending on network hardware and software configuration.
- Performance may improve by adding more memory or a faster CPU.
- **These requirements apply to either client or server installs!**

II. Requirements (setups should meet or exceed)

- 32-bit processor running at 1 GHz or higher
- 4 GB of RAM
- 250 MB free disk space
- 100 Mbps Ethernet Connection
- Monitor (1024x768 resolution), keyboard, and mouse
- Ethernet-ready laser printer

i. .NET Versions

- .NET 2.0 SP1
- .NET 3.0 (Contains 2.0)
- .NET 3.5 (Contains 2.0)

.NET 4.0 or above does **NOT** contain 2.0

ii. Windows Server Versions

- 2008
- 2008 R2
- 2012
- 2012 R2
- 2016

iii. MSSQL Server Versions (expect 30 to 50 Mb of yearly data increase)

- 2005
- 2008
- 2008 R2
- 2012
- 2014
- 2016
- 2017

iv. Windows Client Versions

- Windows 7
- Windows 8
- Windows 8.1
- Windows 10 (Toggle UAC off before install)
