

CFAWin8 Change Log Details

Location	Description
Version 8.1.1187 (Revision 4002)	
Repair Order Entry Header Section	<u>Updated:</u> Meter_01 Reading, Meter_02 Reading, and Meter_03 Reading can no longer be edited once any repair detail line has been posted. Change made to maintain repair history integrity.
Repair Order Entry Detail Section	<u>Updated:</u> Mechanic Notes field is now editable from CFAWin8. <u>Added:</u> Validation requiring the Rep Site field to be populated before the Mechanic or Vendor field can be populated. Application Message prompts when selecting out of sequence: 'Mechanic or Vendor' is not permitted until 'Rep Site' is specified. <u>Updated:</u> Mechanic or Vendor field can no longer be changed once the detail line is posted. Application Message prompts when attempting to change the Mechanic or Vendor field for a posted detail line: Record is already 'Posted'.
Inventory Snapshot Receive Screen Mode	<u>Updated:</u> Parts to be added to a Purchase Order with a blank Vendor field will now prompt an error "'Vendor' cannot be blank." to notify the user the part was not added.
Preferences Equipment Tab	<u>Added:</u> Preference setting ' RO Entry - Use Vendor Labor Rates for Outside Repair '. Allows the use of the Labor Rate or Labor Rate 2 fields from the Vendor Table or 0.00 to be used in the Repair Order detail Labor Rate field when Outside Company is selected for the Rep Site.
